

Aon Reveals the Ward's 50 List of Top-Performing Insurance Companies for 2020

CHICAGO (July 16, 2020) – [Aon plc.](#), a leading global professional services firm providing a broad range of risk, retirement, human capital and health solutions, has released the list of [Ward's 50®](#) top-performing insurance companies for 2020, identifying U.S. companies that have achieved superior financial performance. Ward benchmarking is the leading operational and compensation benchmarking and best practices service for insurance companies.

Key highlights from the list include:

- The Ward's 50 property-casualty group of insurance companies produced a 10.9 percent statutory return on average equity from 2015 to 2019, compared to 7.3 percent for the property-casualty industry overall.
- The Ward's 50 life-health group of insurance companies produced a 17.4 percent statutory return on average equity from 2015 to 2019, compared to 9.5 percent for the life-health industry overall.

In addition to achieving greater levels of income, the Ward's 50 companies also outperformed in other key benchmarks:

- The Ward's 50 life-health group of companies outpaced the industry for five-year policyholder surplus growth (19.0 percent compared to 18.1 percent) and revenue growth (34.3 percent compared to 7.1 percent).
- The Ward's 50 property-casualty group was 6.0 percentage points lower for the five-year combined ratio (93.9 percent compared to the industry's 99.9 percent) and grew policyholder surplus by 19.7 percent compared to 10.1 percent for the industry for the five-year period since 2014.
- Net premiums written for the Ward's 50 property-casualty group grew 49.4 percent compared to the industry's 25.6 percent growth.

"In selecting the Ward's 50, we identified companies that pass financial stability requirements and measure their ability to grow while maintaining strong capital positions and underwriting results," said Jeff Rieder, partner and head of Ward benchmarking at Aon.

The Ward's 50 benchmark group also continues to achieve lower expense ratios:

- In 2019, expenses relative to revenue were 9.0 percent lower for the Ward's 50 property-casualty group of companies and 11.7 percent lower for the Ward's 50 life-health group, compared to the industry.

Methodology

To develop the Ward's 50 annual list of the top-performing insurance companies, Aon analyzes the financial performance of nearly 2,900 property-casualty insurance companies and nearly 700 life-health insurance companies domiciled in the United States, identifying the top performers in each segment based on objective data and subjective quality measures. Each company on the list has passed all safety and consistency screens and achieved superior performance over the five years analyzed. This is the 30th consecutive year Aon has conducted the analysis.

Each company must pass primary safety and consistency tests, including:

- Surplus and premiums of at least \$50 million for each of the five years analyzed
- Net income in at least four of the last five years
- Compound annual growth in premiums between -10 percent and 40 percent

Aon reviews the financial stability of all companies to ensure that they have the potential to grow while maintaining strong financial figures. Companies that pass the safety and consistency tests are scored on the following performance measurements:

- Five-Year Average Return on Average Equity
- Five-Year Average Return on Average Assets
- Five-Year Average Return on Total Revenue
- Five-Year Growth in Revenue
- Five-Year Growth in Surplus
- Five-Year Average Combined Ratio*

** Applicable only to property-casualty insurance companies.*

Ward is the leading provider of benchmarking and best practices studies for the insurance industry, analyzing staff levels, compensation, business practices, and expenses for all areas of company operations and helping insurers measure results compared to peer groups, optimize performance, and improve profitability.
