

Corporate Title Analysis

Titles such as EVP, SVP, and VP are highly prevalent in the banking industry and facilitate a shared understanding of seniority, both with employees and to your customers.

Powered by our [Regional and Community Banking Compensation Survey](#), this analysis provides a customized view of your titles compared to the market and includes:

- Number of unique titles used and number of employees with each title
- Title depth within the organization
- Corporate title alignment across functional area of responsibility
- Salary ranges by title
- Administration guidelines

Using this tool, you can answer questions like:

- What is the typical salary range for each type of corporate title?
- What is the prevalence of the VP title across sales & relationship management positions?
