

Performance Benchmarking for Property-Casualty Insurers

Ward Group's benchmarking data and industry insights uncover opportunities to improve the efficiency of your company operations, empowering you to increase profitability.

In the changing business environment, our clients achieve a competitive expense advantage to stay ahead of the curve. Insurance companies rely on our data and insights to identify real opportunities for improvement across all levels of the organization. We analyze operational performance across the entire enterprise providing a holistic view of how your operations compare to other companies.

We provide expertise to:

- Identify cost reduction
- Assess the impact of projected staffing and expense reductions against revenue projections
- Provide an independent assessment of workload benchmarks
- Develop a road map to achieve efficiency gains that are sustainable

Benchmarking sharpens your perspective on performance

Benchmarking is a key component in capturing the full picture of where your company stands relative to your peers and becomes integral to identifying opportunities to maximize resources and fund your growth strategy. Ward Group is the leading provider of benchmarking studies for the insurance industry. We analyze **expenses, staff levels, compensation, operational metrics, and business practices** for all areas of company operations. From our proprietary data, we deliver industry insights that help you make fact-based decisions about improving your operational performance.

We empower you to:

Assess your operational performance compared to other companies

Analyze and prioritize improvement opportunities

Optimize company resources and maximize efficiency

Improve profitability across the organization

A streamlined and holistic process

Ward Group benchmarking is a streamlined, holistic approach to compare your operations to operations at other insurance companies on an apples-to-apples basis while taking into consideration different distribution systems, product focus, and operating models. Our experienced consultants partner with you to provide **an efficient benchmarking process, minimizing the use of your company resources**. Using our proprietary benchmarking software, we map your expense and headcount data into a common framework. We segment companies by major operations to make the output meaningful for internal and external comparisons, and then meet with you in person to review the data and ensure the integrity of the data source.
